

MYTH BUCIFAL - PRODUCT SPECIFICATION

(STANDING & HANGING OPTIONS)

EUROPEAN-CRAFTED SCULPTURAL SEAT IN TWO CONFIGURATIONS

Material Composition

- Structural core made from volcanic basalt fiber and reinforced glass fiber
- Coated with industrial-grade polyurethane system for durability
- Finished with Ultra-Black polyurethane topcoat (2K) for a deep, refined matte finish
- Suitable for indoor and covered outdoor environments

Configuration Options

1. Hanging Version

- Installed with certified BEAL Rescue VLS static rope
- Rope type: EN1891 Type A - very low stretch, professional rescue-grade
- Rope strength: 36 kN (3600 kg)
- Minimal elongation for stable, secure seating experience
- Mounting options adaptable for villas, hospitality spaces, and retail interiors

2. Standing Version

- Freestanding configuration using a precision-engineered support frame
- Maintains full sculptural presence without ceiling installation
- Designed for placement in private residences, hotel suites, galleries, and lobbies
- Dimensions: Height: 0,4M Width: 0,90 M

Finish & Customization

- Standard finish: Ultra-Black
- Optional customized finishes:
 - Alternative colours
 - Bespoke coatings and fabrics for specific interior concepts

Dimensions

- Height: 1,8M
- Width: 1,10 M
- Depth: 0,9M
- Rope length (hanging option included): 3M

Usage & Performance

- High structural strength and impact resistance
- Designed for long-term visual and mechanical stability
- Resistant to humidity, UV exposure (in covered outdoor locations)
- Easy to clean and maintain
